

# **BSG Wireless Wins Wireless Broadband Alliance Chairman's Award for 2014**

NEW YORK, Oct. 16, 2014 -- [BSG Wireless](#), recognized as a leading provider of Wi-Fi solutions for delivering proven and reliable managed services into the growing Wi-Fi ecosystem, today announced it has won the Wireless Broadband Alliance Chairman's Award in the Technology Partner Category, part of the WBA's Wi-Fi Industry Awards 2014.

The Chairman's Awards are designed to reward both operators and vendors who have made significant contributions to WBA projects during the past 12 months. Nominees are voted on by the WBA members. This year's Chairman's Award winners were announced at a gala awards dinner and networking event at Wi-Fi Global Congress in San Francisco on October 9.

"The two organizations nominated for this year's Chairman Awards have both made outstanding contributions not only to the WBA's initiatives, but also to the wider ecosystem. I would like to take this opportunity to congratulate BSG Wireless and hope that this will inspire further collaboration and innovation in the future," said Shrikant Shenwai, CEO, Wireless Broadband Alliance.

"We are truly honored to have been chosen by the WBA for the Chairman's Award. This award is an acknowledgement by the industry of all the hard work and dedication by the

entire BSG Wireless team and our position as a market leader," said Atul Devani, CEO BSG Wireless.

Specifically, BSG Wireless was recognized for its work with the Next Generation Hotspot (NGH) initiative and trials, in addition to its leadership and contributions to the Interoperability Compliance Program and Roaming Enhancements working groups.

The Chairman's Awards are voted for separately by WBA Members and recognize the outstanding contributions that have been driving key initiatives in the Wi-Fi ecosystem over the past 12 months. Additionally, the WBA sponsored Industry awards that were open to the entire industry and judged independently of the WBA by a panel of highly distinguished analysts and industry experts, led by Peter Jarich, Research Director, Service Provider Infrastructure Practice, Current Analysis. The awards attracted entries from vendors and operators from across the world encompassing the whole public Wi-Fi ecosystem.

### ***About BSG Wireless***

BSG Wireless is an innovative Wi-Fi solutions provider, delivering managed services and products to carriers who want to build, manage, charge for and market their wireless services securely and efficiently. We assist some of the world's leading wireless operators in managing their global wireless roaming footprint, location directories, payment gateway and credential issuance systems to ensure a reliable, secure and seamless customer experience. BSG is a leader in the Wi-Fi industry and are a major contributor to the Wireless Broadband Alliance (WBA). For more information, please visit [www.bsgwireless.com](http://www.bsgwireless.com)

BSG Wireless is a subsidiary of Billing Services Group Limited (BSG). Established in 1988 with locations in San Antonio, Texas USA and London, United Kingdom, BSG is a leading provider of clearing and financial settlement solutions and verification services. BSG is the largest third-party clearing house for LEC billing in the United States, having long-standing relationships with more than 500 telecommunications partners in North America. BSG is publicly traded on the London Stock Exchange (AiM: 'BILL'). For more information, please visit [www.bsgclearing.com](http://www.bsgclearing.com).

### ***About the Wireless Broadband Alliance***

Founded in 2003, the aim of the Wireless Broadband Alliance (WBA) is to secure an outstanding user experience through the global deployment of next generation Wi-Fi. In order to make this a reality, the WBA is currently championing various initiatives in the Wi-Fi ecosystem including Next Generation Hotspot (NGH) trials, Wi-Fi Roaming and its

Interoperability Compliance Program (ICP). Today, membership includes major fixed operators such as BT, Comcast and Time Warner Cable; seven of the top 10 mobile operator groups (by revenue) and leading technology companies such as Cisco, Google and Intel. WBA member operators collectively serve more than 1 billion subscribers and operate more than 10 million hotspots globally. The WBA Board includes Arqiva, AT&T, Boingo Wireless, BT, Cisco Systems, Comcast, iPass, KT Corporation, NTT DOCOMO, Orange and Ruckus Wireless.
